

EXPORT BULLETIN

Welcome to our first Export Bulletin! As we are celebrating our 21st anniversary this year we are very pleased to announce the expansion of our Export Department at Whitehead Scientific with the appointment of Ronél Jennings as the new Export Manager.

Ronél brings many years of international experience in the laboratory supply field to our team. We aim to expand our service and sales in Africa through dedicated effort and support to both existing and new customers throughout the region.

For product information and technical questions please contact

Ronél on: Tel: +27 21 9446460 ext 226 or ronel@whitesci.co.za

For quotations and shipping information please contact our experienced Export Coordinator:
Penny Snyman on +27 21 944 6460 ext 202 or penny@whitesci.co.za

WhiteSci is a leading supplier of scientific equipment and reagents to the life science research, and molecular diagnostic sectors in Southern Africa. WhiteSci supplies products for Molecular Biology, Tissue Culture, Immunology, Laboratory Equipment & Plastics and Molecular Diagnostics. We welcome all of your questions and product enquiries.

Our highly motivated and trained staff assists our customers to find the most effective solution to their research needs. Technical information and efficient budgeting advice is always available. Our efficient and approachable administration and logistics operations make every transaction run smoothly.

We are pleased to provide you with an overview of the suppliers we represent and products we offer in this first edition of our Export Bulletin.

Whitehead Scientific (Pty) Ltd

POBox 194 Brackenfell 7561

South Africa

www.whitesci.co.za

Molecular Biology Products

Illumina	Whole Genome Sequencing, genotyping and genetic analysis
Promega	Genomics Proteomics Cellular Analysis Genetic Identity, Automated DNA Purification, microplate luminometers and fluorometers
Integrated DNA Technologies	Synthetic Oligonucleotides Ready made primers
SABiosciences (Superarray)	Pathway-focused gene expression products
Princeton Separations	Molecular Separation Specialists CentriSep™ & CentriSpin™ spin columns for DNA, protein and carbohydrates

Cell Biology

Lonza	Bioassays, Cell Biology, Cell Culture, Electrophoresis, Protein Analysis
--------------	--

Molecular Diagnostics

Tepnel Diagnostics	PCR based chromosomal aneuploidy analysis
---------------------------	---

Immunology Products

R&D Systems	Cytokines and related molecules. Proteins, antibodies and immunoassays.
Santa Cruz	Antibodies for signal transduction and cellular regulation
KPL	Non-radioactive detection. Secondary antibodies and substrates
Stem Cell Technologies	Specialised media and cell separation products
Hycult Biotechnology	Innate immunity products
IFI	Forensic rapid stain identification

Laboratory Equipment and Plasticware

Labnet International	Microcentrifuges, micropipettes, power supplies, gel electrophoresis units, thermocyclers, mini water baths, hybridization incubators, digital dry baths, rotary shakers, mini-incubators and vibratory mixers.
UVItec	UV Products. Gel documentation systems and software
MBP—Quality Scientific Plastics	ART® filter tips, reaction tubes, pipette tips, PCR tubes and storage tubes.

Microcapillary Cytometer

Guava Technologies Inc.	Benchtop 'capillary flow' cytometer for use in cell viability, apoptosis, cell-cycle and protein expression studies. Applications in HIV research (CD4 and CD8 testing)
--------------------------------	---
