

Anoxomat® III Accessories

Anoxomat provides a stable environment for bacterial growth. The system uses a disposable catalyst for anaerobic environments, and has a wide assortment of jars and petri dish holders.

Essential for Maximum Performance. Designed with you in mind.

Disposable catalyst saves time

Palladox™ is flexible and convenient so you work smarter when creating anaerobic environments.

Single-use, easy-to-use disposable sachet streamlines your workflow. You **don't waste precious time** reheating the catalyst and there is **no oven needed**.

- **Easy:** Made to fit and compatible with all jars
- **Saves time:** No reheating; cuts wait time by up to 2 hours
- **Simplifies workflow:** No guesswork on catalyst activity
- **Expedites processing:** So you optimize your time

Our accessories provide an optimal environment for bacterial growth.

Choose from a wide assortment of jars

Connects to a variety of standard and ergonomic jars that hold different numbers of stacked culture plates of various sizes.

Maximize space with ergonomic jars

Designed for comfort and usability, you'll love the flexibility of these lightweight and compact jars.

- Comfort lid easily snaps on to create a secure seal
- Stack and nest to fit more jars in incubator
- Easy-grip handle makes transport a breeze
- Lid easily connects to gas supply
- Holds 12 plates or 24 plates per jar

Large capacity jars for large labs

Large laboratories need large capacity jars. Our standard jars do the trick. Large enough to hold up to 36 petri dishes, these jars meet the needs of large laboratories.

- Snap-shut gas supply coupling for easy connecting
- Lid clamp ensures a secure seal
- Variety of autoclavable Petri dish holders
